## Announcement of Awards

### Rossing Prize in Acoustics Education

Congratulations to the 2019 recipient: **Preston Wilson**. The Rossing Prize Lecture “*Learning and Teaching Acoustics Through Bubbles*” was Tuesday morning 2aEDb at 11:00am in *Carousel*. (45-50 attended)

Very few nominations have been submitted in recent years (only 3 nominations for 2019). The prize is not limited to ASA members. How/where could we advertise to increase awareness of this prize? Responses included: a summary article (about the prize and previous winners?) in *Acoustics Today* or *Physics Today*.

Next call for nominations will be posted soon and will be due March 2020. Current Rossing Prize selection committee members are:

ED Comm Chair – *Dan Russell*

1 member selected by Education Committee Chair – *Andrew Morrison (2018-2021)*

1 member selected by ASA President – *Tyrone Porter (2017-2020)*

2 members selected by Special Fellowships Chair – *John Buck (2018-2021)* and *David Dowling (2019-2022)*

### Robert W. Young Award for Undergraduate Research

Five (5) applications were received and were reviewed by Dan Russell (chair) along with Andrew Morrison and Benjamin Tucker reviewed the applications. Funding in the amount of \$2500 was available, so all received funding:

- **Lucas Barnes** — “*Experimental quantification of near-field scattering super resolution in time reversal acoustics*” — \$400 (Brigham Young University — Brian Anderson, Advisor)
- **Jorge Mateus** — “*Using ultrasonic arrays for object detection*” — \$500 (Michigan State University — Sunil Chakrapani, Advisor)
- **Kathleen Ohman** — “*The effects of blast-induced TBI on mouse ultrasonic vocalizations*” — \$600 (SUNY Buffalo — Michael Dent, Advisor)

- **Samantha Scheidler** — “*Studying DPOAE fine structure patterns in different recording paradigms*” — \$400 (Michigan State University — Maryam Naghibolhosseiri, Advisor)

Some discussion about raising awareness of this Award, including announcing it to SPS (Society of Physics Students) and other AIP/AAPT/ASEE/AES orgs with strong undergraduate and/or regional chapters.

### [New Business \(items for current discussion\)](#)

### Information from the Technical Council meeting Monday Dec. 2

- **ASA Standards** – is the ASA membership benefit of 5 FREE standards going away? This year (2019) members still have the opportunity to obtain 5 free standards until the end of the year (Dec. 31). Starting 2020, all standards will be available only for purchase. Considerations for offering bundles (similar topics) for reduced cost. Reason for dropping the free standards is financial cost (negative balance) – and sense of “less value” when standard (which has costs to develop) are offered free – generation of revenue will allow for marketing and better dissemination.
- **Photography Policies** – Current practice is “no photography allowed without permission” (slide at beginning of every session) => BUT this is routinely ignored. What should the policy be moving forward? Should we just How would a policy of “No photos” be implemented? Who polices this? Who calls out and reprimands someone who is filming or taking photos? Who is responsible for saying “no photos?” – the author? The session chair? POLICY needs to change – Policing is a separate issue from the policy.
- ED consensus seemed to be that the default policy should be NO photos, with authors having the right to allow photos of their talk.
- **ASA-EL** to become separate open access journal, end of 2020. => costs will increase from \$500 per article to \$900 per article. Authors will be allowed +1 extra page + 1 extra figure, CCPI license for authors. Most open access journals require \$2100 per paper?
- **JASA Calendar!!!** – calendar of JASA covers is available several places around the hotel.
- **Task Force D** – Member Engagement Outside of Meetings => how to engage members (especially those who cannot attend meetings) between our two biennial meetings???
- **Andy Morrison** – has set up [tinyurl.com/getAER](http://tinyurl.com/getAER) and [tinyurl.com/shareAER](http://tinyurl.com/shareAER) for places for ED members to place useful XXX to

### Old Business (items raised at previous meetings but not resolved)

#### ED Com Website ([asaedcom.org](http://asaedcom.org))

- Who is the target audience for this website?
- How is it being used (by members? by others?)
- What could we do better with this website to make it more useful?
- Who should be in charge of updating/revising our webpages?

At ASA 176 Victoria, it was suggested that we create a subcommittee to explore some of the questions raised

#### ASA Auditory Demonstrations CD

- Why is this not available on iTunes? Spotify? Googleplay?
